Contest Scientific Committee

Kasim Al-Aubidy (Chair)

Saad Mekhilef

Abdallah Kouzou

Mohamed Driche

AG-TEC

Call for Contributions

To participate in the **Undergraduate Students Competition (PSC)**, you must be an undergraduate student pursuing an academic degree at the time of initial submission.

- If you are considering submitting your existing work to **PSC** which has accepted or is currently under review in other venues or other tracks, we encourage you to add some novel parts other than the existing content to be considered in the competition.
- Supervisors of the work may not be listed as co-authors; for the competition, you should submit a single-authored version of your work.

How to Participate: Submit a Research Abstract

To participate in the competition, you should submit an extended research abstract related to the main SSD'22 themes. The extended research abstract should discuss:

- Abstract
- Research problem and motivation for the work
- Background and related work
- Approach and uniqueness
- Results and contributions

Project Submission:

Undergraduate students are invited to submit projects written in English up to 4 pages, including all text, appendices, and figures. Submissions should be formatted according to the project template and submitted as a PDF file that follows the USC format :<https://ssd-conf.org/undergraduate-students-competition/>. You must submit your project research electronically to : sub-undergrad.SC.22@gmail.com

Important Dates

Submission deadline: **March 1, 2022**

Author notification: **March 12, 20122**

Final paper Submission: **August 25, 2018**

Prizes and SRC Grand Finals

The top three winners will be recognized during the conference
